The model Vermicomposting pit was prepared by the participants during afternoon session under supervision of the resource person.

The laboratory session was provided by Dr. Sunil Chandra, Coordinator, Community College under Bahona College.

#### A Workshop on New Education Policy:

Expectations and Ways Forward

No. of Participant: 57

Date: 14.08.2019

IQAC, Bahona College on 14th August 2019 organised a workshop on New Education Policy. Dr. Parash Goswami, District Program Officer, SSA, Assam attended the programme as the Resource Person. Dr. P.K. Dutta, Principal of Bahona College welcomed the Resource Person to the college and officially inaugurated the Workshop with his inaugural speech. Dr. Rofique Ahmed, Coordinator, IQAC gave a brief idea of New Education Policy. He also introduced the Resource Person and said that we are looking at the changes this New Education Policy may bring in and how institutions like Bahona College should prepare to adopt this.

Dr. Parash Goswami discussed different education policies India adopted since the 1950s and also highlighted the timeframe it took in its implementation. Dr. Goswami said that the present Education Policy is framed considering the future of India. The government of India wants to develop India as a world leader of education by the 2030s and also wants to create India land of skilled persons. Therefore, this policy gives importance on skill education, multidisciplinary learning, use of technology etc. He also said that this new education policy is an attempt to revive the old heritage of India. Therefore, the policy has given enough weightage to ancient knowledge of India.

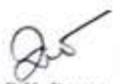

Dr. Parash Goswami said that present infrastructure is not developed and equipped enough to adopt the new education policy and India may need to wait a few more years for implementing the policy. However, he also said that there is an urgent need to introduce the new education policy. He said that the government needs to increase its budget share in the education sector for proper and timely implementation of the policy.

The teaching staff interacted with the Resource Person after his deliberation. They wanted to know the changes college may experience with the New Education Policy. Dr. Goswami said that the degree courses will become a four year course. There will not be streams like Arts, Science or Commerce. Teachers wanted to know about infrastructure support from government to colleges for introducing the new policy. Dr. Goswami said that the government must spend huge amounts for upgrading the educational institution. More CSR, more collaboration, industry linkage, revenue generation of colleges will help colleges in upgrading the infrastructure.

Amarjyoti Bharali, Secretary of Teachers Unit offered vote of thanks to the Resource Person for his deliberation and interaction. The programme was attended by 57 teaching and non teaching staff of the college.

Dr.Jitendranath Goswami, Eminent Indian Scientist, delivered a speech at Bahona College, Jorhat on 16.09.2016 on the occasion of Golden Jubilee Celebration of Bahona College. He spoke about the success story of Chandrayaan-1 and added a line "After successful mission of Chandrayan-1, Indian Space Science has grown up with confidence and new ideas and innovations are developing among the Indian Space Scientists. The Assam Pride, Dr. Goswami motivated the students by saying "successful mission of Chandrayan-1 has set up an example to all that nothing is impossible if you desire to do so. Dr. Goswami remembered about the contribution of Indian Space Scientist Vikram Sarabhai and told that successful mission of Chandrayan would fulfil his dreams to some extent. He also poignantly pointed out that after first launching of satellite "Aryabhata" on 19<sup>th</sup> April, 1975, India has launched 11 satellites from 1995 to 2005 alone and 9 satellites with the help of other countries. He also pointed out that Indian Space organization "ISRO" has launched 31 satellites since 2005 and yearly 6 satellites have been launched already.

The speech was attended by around 45 faculties and 160 students from Bahona College and neighbourhood schools. This was followed by an attractive interaction session with faculties and students. Dr. Gopal Hazarika, Associate Professor of Dept. of Physics, Bhaona College, offered vote of thanks at the end of the program.

He elaborates the concept Vermicomposting, which could be defined as, the conversion of biological processes, insects and techniques used systematically and intensively to culture large quantities of certain species of earthworms in space on the stabilization of organic waste materials, which are either ground and digested by the earthworms with the help of aerobic and some anaerobic micro flora, and thereby naturally converted into much finer, humified, microbial active liquid material (castings), where important plant nutrients are held in a form which more soluble and available to plants than those in the parent compostable.

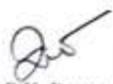

The model Vermicomposting pit was prepared by the participants during afternoon session under supervision of the resource person.

The laboratory session was provided by Dr. Sunil Chandra, Coordinator, Community College under Bahona College.

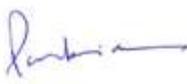

Dr. Mahesh Smit Barua, Coordinator, Extension Cell, Bahona College offered the vote of thanks.

### A Workshop on "New National Education Policy" (Expectations and Ways Forward)- 2019

#### A Workshop on New Education Policy:

Expectations and Ways Forward

No. of Participant: 57

Date: 14.08.2019

IQAC, Bahona College on 14th August 2019 organised a workshop on New Education Policy. Dr. Parash Goswami, District Program Officer, SSA, Assam attended the programme as the Resource Person. Dr. P.K. Dutta, Principal of Bahona College welcomed the Resource Person to the college and officially inaugurated the Workshop with his inaugural speech. Dr. Rofique Ahmed, Coordinator, IQAC gave a brief idea of New Education Policy. He also introduced the Resource Person and said that we are looking at the changes this New Education Policy may bring in and how institutions like Bahona College should prepare to adopt this.

Dr. Parash Goswami discussed different education policies India adopted since the 1950s and also highlighted the timeframe it took in its implementation. Dr. Goswami said that the present Education Policy is framed considering the future of India. The government of India wants to develop India as a world leader of education by the 2030s and also wants to create India land of skilled persons. Therefore, this policy gives importance on skill education, multidisciplinary learning, use of technology etc. He also said that this new education policy is an attempt to revive the old heritage of India. Therefore, the policy has given enough weightage to ancient knowledge of India.

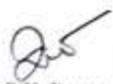

Dr. Parash Goswami said that present infrastructure is not developed and equipped enough to adopt the new education policy and India may need to wait a few more years for implementing the policy. However, he also said that there is an urgent need to introduce the new education policy. He said that the government needs to increase its budget share in the education sector for proper and timely implementation of the policy.

The teaching staff interacted with the Resource Person after his deliberation. They wanted to know the changes college may experience with the New Education Policy. Dr. Goswami said that the degree courses will become a four year course. There will not be streams like Arts, Science or Commerce. Teachers wanted to know about infrastructure support from government to colleges for introducing the new policy. Dr. Goswami said that the government must spend huge amounts for upgrading the educational institution. More CSR, more collaboration, industry linkage, revenue generation of colleges will help colleges in upgrading the infrastructure.

Amarjyoti Bharali, Secretary of Teachers Unit offered vote of thanks to the Resource Person for his deliberation and interaction. The programme was attended by 57 teaching and non teaching staff of the college.
